Forklift B

Do you want to keep order in the warehouse? Or are you looking for a fast track to your next job? As a certified forklift operator, you will be wanted in the job market.
In 7-days, we teach you how to drive and operate different types of forklifts with different construction and equipment. You will also learn how to maintain a high level of safety when you transport goods on ramps, shelves, narrow spaces and warehouses.

In this course you get plenty of time to test your skills with the small forklift. In the practical exercises, we first teach you how to drive and operate forklifts, and then you become an expert in making proper stowage, pick-up and put-down of different types of goods. In our practice area we have many different barrels, pallets and water tanks that you will be moving around, both outside and inside our large warehouse.

Part of the forklift training is learning about safety. This will take place in the classroom, where you will learn how to read loading diagrams and learn about the risks when working with the machines. For safety, you will also receive simple first aid and firefighting training, so you are completely ready to operate a forklift at your new job.

When you have completed the course, you need to take a final test to get your forklift certificate B.

Requirements
There are only a few rules for starting the course

- You must be 18 years old
- Show either a valid driving license or a satisfactory medical certificate
- You must bring safety shoes. We have shoes you can borrow, if you don’t have your own.

Certificates
Once you have been on this exciting 7-day course and have passed the test, you will receive the AMU course certificate.

Price
The price is valid for people living or working in Denmark, who don't have a higher education. If you receive unemployment benefits, your Jobcenter can pay for the course. Contact us for more information.

Kursusinfo

What can I do with a forklift certificate?
If you get a forklift certificate B, you will face a lot of exciting job opportunities in Life Science companies, transport and logistics industry among others. There are many companies that are looking for new employees who can operate a forklift.

With a forklift certificate, you become an attractive employee at:

- Warehouses
- Harbours

Fag: Gaffeltruck certifikatkursus B, 7 dage

Fagnummer: 47592	**Varighed** 7 dage
Inden for AMUs målgruppe: DKK 1.526,00	**Uden for AMUs målgruppe:** DKK 7.014,30

Målgruppe: Deltagerne skal være fyldt 18 år og kunne fremvise enten et gyldigt kørekort eller en tilfredsstillende lægeattest (Sundhedsstyrelsens blanket til helbredsmæssige oplysninger ved udstedelse af kørekort).

Beskrivelse: Deltageren kan efter gennemført uddannelse føre og betjene forskellige typer gaffeltrucks (eldrevne og gas-/dieseldrevne), og en selvkørende gaffelstabler, med forskellig opbygning og udstyr efter gældende sikkerhedsbestemmelser ved transport af varierede godstyper, på ramper, i reolgange, snævre rum og lagerhaller i overensstemmelse med færdselslovens krav.
Deltageren kan:
Foretage korrekt stuvning, optagning og afsætning af forskelligt gods i forskellige højder i forskellige reoltyper i container og på lad, samt udføre blokstabling – herunder vælge egnet løfteudstyr og lastbærer.
Udføre de eftersyn, som gaffeltruckføreren er ansvarlig for, og har viden om hvor ofte gaffeltrucken skal efterses og vedligeholdes.
Anvende leverandørens brugsanvisning i det daglige arbejde med gaffeltruck i forhold til at opnå det nødvendige kendskab til den/de konkrete maskine(r), der anvendes.
Anvende sin viden om risici forbundet med at arbejde med gaffeltrucks og gaffelstablere, herunder gaffeltruckens/gaffelstablerens opbygning og sikkerhedsanordninger samt den beregnede anvendelse og anvendelsesbegrænsninger af de forskellige trucktyper.
Aflæse forskellige typer belastningsdiagrammer på en sikker og forsvarlig måde, herunder vurdere byrdens vægt og tyngdepunktets placering samt vide om byrden ligger stabilt, inden der løftes.
Arbejde aktivt med eget arbejdsmiljø/ergonomi, elementær brandbekæmpelse og førstehjælp i forbindelse med at føre og betjene gaffeltrucks og gaffelstablere.

Uddannelsen indeholder de emner, der er nødvendige for at deltagerne kan tilegne sig de kvalifikationer, som kræves i Arbejdstilsynets bekendtgørelse om arbejdsmiljøfaglige uddannelser for at føre og betjene gaffeltrucks og gaffelstablere. Uddannelsen omfatter tillige certifikatprøven, der aflægges i henhold nævnte bekendtgørelse som fastlagt i censorvejledningen for denne certifikattype.
